**NEWTON'S FIRST AND THE LAST LAW OF EDUCATION**

According to this law – the pressure on the mind of a student is inversely proportional to the number of days left for exams, while the syllabus remains constant.

\[ P = \frac{S}{N} \]

\[ P \propto \frac{1}{N} \]

- \( P \) = Pressure on mind
- \( N \) = No. of days left for exams
- \( S \) = Syllabus
