Erratum

Page 436. Fig. 5—Representative images of H&E stained tissue sections of (a) lung; and (b) spleen sections from guinea pigs at 60 days after infection. [Tissues were harvested, fixed and processed as described in Materials and Methods. Images at 100X are shown in left panel and 400X magnification on corresponding right panel. G, Granuloma; L, Lymphocytes; FC, Foamy histiocytic cells; AS, Alveolar spaces; and E, Epithelioid cells.]

Fig. 5 (b) the left panel for Rv1384 was inadvertently duplicated with Rv0143c. The correct image for the panel under Rv0143c is given below: (Not the whole figure but respective portion)

![Corrected Rv0143c Image](image-url)

stands corrected as

The error is regretted.
