ACROSS
1. A metamorphic rock composed primarily of talc having soap like feel (9)
4. The space between or inclination of two meeting lines or surfaces (5)
6. Chemical name of Vitamin D (10)
9. Species having swarming phase in the family Acrididae (6)
11. A double sulphate of aluminium and potassium (4)
15. An infection caused by the bacteria Salmonella typhimurium (7)
17. Frequency modulation (2)
18. Elementary particle similar to the electron (4)
23. A very long or indefinite period (4)
24. A catecholamine that acts as neurotransmitter (8)
27. Acronym used for pound (2)
28. Nitrogen base found in RNA (6)
30. Scientists who formulated the three laws of planetary motion (6)
31. The science of soil management and crop production (8)
32. A set of step-by-step instructions compiled by an organization to carry out routine procedures (3)

DOWN
1. Clear fluid comes out from a wound (6)
2. Containing no cells (9)
3. Fish belonging to the order anguilliformes (3)
5. Phylum of many beautiful sea creatures (13)
7. Two or more nuclides having same neutron number but different proton number (8)
8. 10th Greek alphabet which is used to denote von Kármán constant (5)
10. A molecule found on the surface of T-cells (3)
12. Viral infection of parotid glands (5)
13. An alkaloid used to treat pain, as a cough medicine and sometimes used for diarrhea (7)
14. Affected with nausea due to travel in an aircraft (7)
16. This pigment is also known as visual purple (9)
19. Member of the genus Drosophila (5, 5)
20. SI Unit of Luminous intensity (7)
21. Earliest stage of an animal development (6)
22. Cancer arising from plasma cells (7)
25. Polymerase Chain Reaction (3)
26. An angle of less than 90° (5)
29. It is formed when natural gas is cooled to approximately -162°C (3)
