

# Indian Journal of Radio & Space Physics

<http://www.niscair.res.in>; <http://nopr.niscair.res.in>

**VOLUME 50**

**NUMBER 1**

**MARCH 2021**

CODEN : IJRSAK 50 (1) 1-52

ISSN: 0367-8393 (Print); 0975-105X (Online)

## CONTENTS

### *Papers*

|  |    |
|--|----|
| Renyi entropy based Bi-histogram equalization for contrast enhancement of MRI brain images<br>Vijayalakshmi D, Poonguzhali Elangovan, & Malaya Kumar Nath                        | 5  |
| Segmentation of satellite images using machine learning algorithms for cloud classification<br>Sruthy Sebastian, Lakshmi Sutha Kumar, & Pugazhenthii Annadurai                   | 12 |
| Accurate prognosis of Covid-19 using CT scan images with deep learning model and machine learning classifiers<br>Siddharth Gupta, Palak Aggarwal, Nisha Chaubey, & Avnish Panwar | 19 |
| Design of 3.1GHz/4.1GHz/5.1GHz/9.8GHz tetra band microstrip antenna for wireless applications<br>Shiddanagouda Byanigoudra, N Dinesh Kumar, Vani R M, & P V Hunagund             | 25 |
| Design and analysis of Hexagonal loop inscribed square shaped unit Cell for frequency selective surface<br>Rajasri S, & Boopathi Rani R  | 29 |
| Detection of glaucoma from fundus image using pre-trained Densenet201 model<br>Poonguzhali Elangovan, Vijaylakshmi D, & Malaya Kumar Nath  | 33 |
| Effective Recommendation model using social network for linking user pursuit to product content<br>Valarmathi P, Dhanalakshmi R, & Narendran Rajagopalan                         | 40 |
| Performance of antenna selection schemes for massive multiple-input multiple-output systems under Non-orthogonal multiple access cooperative communication<br>Shamla Badarudeena | 46 |

## Author Index

|                           |       |                       |       |
|---------------------------|-------|-----------------------|-------|
| Aggarwal Palak            | 19    | M Vani R              | 25    |
| Annadurai Pugazhenth      | 12    | Nath Malaya Kumar     | 5, 33 |
| Badarudeena Shamla        | 46    | Hunagund P V          | 25    |
| Byanigoudra Shiddanagouda | 25    | P Valarmathi          | 40    |
| Chaubey Nisha             | 19    | Panwar Avnish         | 19    |
| D Vijayalakshmi           | 5, 33 | R Boopathi Rani       | 29    |
| Elangovan Poonguzhali     | 5, 33 | R Dhanalakshmi        | 40    |
| Gupta Siddharth           | 19    | Rajagopalan Narendran | 40    |
| Kumar Lakshmi Sutha       | 12    | S Rajasri             | 29    |
| Kumar N Dinesh            | 25    | Sebastian Sruthy      | 12    |

## Keyword Index

|  |       |  |    |
|--|-------|--|----|
| Adaptive clipping limit                                      | 5     | INSAT-3DR  | 12 |
| Amazon dataset   | 40    | K-Means clustering   | 12 |
| Band pass characteristics                                    | 29    | Logistic regression (LR)                                     | 19 |
| Band stop characteristics                                    | 29    | Machine Learning   | 19 |
| Contrast improvement index                                   | 5     | Massive multiple-input<br>multiple-output (MIMO)             | 46 |
| Convolution neural network (CNN)                             | 19    | Microstrip antenna   | 25 |
| Cooperative communication                                    | 46    | Non-orthogonal<br>multiple access (NOMA)                     | 46 |
| Coronavirus  | 19    | Ocular disease   | 33 |
| Deep Learning  | 19,33 | Random forest  | 12 |
| Discrete cosine transform                                    | 5     | Recommender system   | 40 |
| Diversification  | 40    | Rectangular split ring defected ground<br>structure (RSRDGS) | 25 |
| Double threshold generalized selection<br>combining (DT-GSC) | 46    | Spatial distribution   | 5  |
| E-commerce   | 40    | Total peak gain  | 25 |
| Fine-tuning  | 33    | Transfer learning  | 33 |
| Frequency selective surface (FSS)                            | 29    |  |    |
| Fuzzy logic  | 40    |  |    |
| Fuzzy-C-Means  | 12    |  |    |
| Gradient magnitude similarity deviation                      | 5     |  |    |
